Hey Bob,

The three stations appears to be transmitting consistently now. Looks like bad satellite transmission conditions for a few days. This is most likely the weather as it I saw sporadically transmissions on other stations as well.

I plan to get up to the Bryant Creek location on Friday as this sonde looks out of the water, but don't plans to visit station 15 at that time. We do plan to perform scheduled maintenance on all 4 stations in the next few weeks, weather permitting. Thanks for the heads up.

Greg

Hi Greg,

I noticed that the water quality monitoring station on Leviathan Creek in Alpine County, CA, apparently malfunctioned yesterday. The attached file includes a data table for the period when it malfunctioned.

Do you know what the plans are for repairing it?

Thanks.

Bob
